

TECHNICAL DATA SHEET

TECHNICAL DATA SHEET FISH-EYE ELIMINATOR

PRODUCT: An additive that helps to control and/or eliminate pin holes, "fish-eyes", and other surface tension related issues in solvent based epoxy coatings

DIRECTIONS:

Use as needed for increasing flow and leveling of solvent base epoxy coatings to reduce or eliminate pin holes, "fish-eyes", and other surface tension related issues. Typical amounts for effective flow control range from 1-3 ounces per gallon.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN.
USE WITH ADEQUATE VENTILATION.
AVOID CONTACT WITH SKIN AND EYES.
READ MATERIAL SAFETY DATA SHEET BEFORE USING.
CONTENTS ARE FLAMMABLE.
