

# TECHNICAL DATA SHEET

**TECHNICAL DATA SHEET  
INTREPID ALKYD ENAMEL  
AEROSOL, LOW VOC**

**PRODUCT:** A solvent thinned, low VOC, aerosol enamel for various aerospace / defense coating applications.

**DESCRIPTION:** A low VOC high quality alkyd enamel available in gloss, semigloss and flat finishes.

**PROPERTIES:** COLORS..... Per Fed-Std  
595B FINISH..... Gloss,  
Semigloss, Flat

**DRYING TIMES:**

TO TOUCH..... Within 30  
Minutes DRY THROUGH..... Within  
18 Hours  
SHELF LIFE..... 24 Months from  
DOM

**ADVANTAGES:** (1). Low "VOC"  
(2). Aerosol Spray Application  
(3). Air Dry Finish

**USES:** (1). Furniture  
(2). Equipment  
(3). Shelving  
(4). Industrial Facilities  
(5). Aerospace Coating Applications  
(6). Military Equipment

**APPLICATION:** Apply by spraying thin, multiple coats on the substrate. Do not over spray thick one coat films, as running and sagging of the film will occur.

**Net wgt:** 12 ounce can (Gross wgt 16 ounce can)
