TECHNICAL DATA SHEET
INTREPID ALUMINUM AIRCRAFT ENAMEL
AEROSOL, LOW VOC

PRODUCT: A solvent thinned, low VOC, aerosol enamel that is corrosion resistant and suitable for aircraft applications.

PROPERTIES: COLORS..... Aluminum
FINISH..... Gloss

DRYING TIMES:

TO TOUCH..... Within 30 Minutes
DRY THROUGH..... Within 18 Hours

ADVANTAGES: (1). Low "VOC"
(2). Aerosol Spray Application
(3). Air Dry Finish

USES: (1). Furniture
(2). Equipment
(3). Shelving
(4). Industrial Facilities
(5). Aircraft Applications

APPLICATION: Apply by spraying thin, multiple coats on the substrate. Do not over spray thick one coat films, as running and sagging of the film will occur.
