

TECHNICAL DATA SHEET

TECHNICAL DATA SHEET POLYPANE HARDENER

PRODUCT: A polyurethane modifier designed to modify the resistance and dry times of standard alkyd enamels.

DESCRIPTION: A high quality polyurethane modifier that offers excellent exterior durability at an affordable cost. Polypane can be added to almost any alkyd or enamel coatings to increase durability, resistances, and dry time of the coating.

ADVANTAGES:

- (1). Weather Resistant.
- (2). Durable and Tough.
- (3). Abrasion Resistant.

APPLICATION & REDUCTION:

Polypane hardener must be mixed to catalyze the alkyd enamel at an 8:1 ratio (1 quart per gallon) to to a 4:1 mix ratio (1 quart per gallon) to achieve the desired hardness and resistance.

PRECAUTIONS:

Contents are FLAMMABLE.

Keep away from heat and open flame.

KEEP OUT OF THE REACH OF CHILDREN.

Do not take internally.

Avoid breathing vapor or mist.

Do not use in tank or pit without proper protection.

Read Material Safety Data Sheet before use of this product.
